COLLECTION

We at SHREE TIRUPATI BRASS WARE have one of the finest production facility of Brass Hardware in the region.

Our entire Brass Hardware Product Range is forged from virgin brass is our state of the art fully computerized production facility. Various polished finishes are achieved in our most modernized electroplating plants. To enhance the life of the finished surface PU coating is done as a top coat using fully computerized sensor controlled spray guns

To further improve the strength of the PU coat, the finished piece is baked using ultraviolet radiation through baking conveyerised oven process in a fully automatic plant. The entire process, is controlled by a highly skilled team of engineers and technicians who have been imparted training and know-how at the top production facilities in the world.

AVAILABLE FINISHES
