No matter what's your cooking style, True Brass Hobs can take on anything.

Presenting True Brass Hobs
with intense and even flame
for Indian Cooking.

TrueBrass 3D

Made from pure brass so you can rely on our burners with 3 flame rings that come with precision flame control that enables easy usage. The internal flame helps to simmer food and for full capacity intense cooking, all 3 flame rings are initiated.

Intense Blue Flame

The blue flame renders complete combustion where right amount of cooking gas comes in contact with sufficient levels of oxygen. Leading to food being cooked evenly at any flame setting.

Flame Failure Safety Device

It detects if the gas is on, even though the flame is off and automatically cuts off the gas supply. This safety feature prevents accidents from taking place in the kitchen. Bosch's hobs provides this safety feature in all the burners.

Zero Leak Design

Our best in class Bosch Hobs are engineered with a fully sealed burner base that does not allow any food and liquid particles to get inside the body. Thereby ensuring no blockages.
