Grip

✓ Dry Grip

Big block Pattern offers wider contact patch leads to confident and stable handling as well superior dry grip

✓ Wet Grip

Optimized groove-rubber ratio helps in better water evacuation thus ensures proper wet grip

Tyre Mileage

Abrasion resistant tread compound offers high tyre mileage in both on and off road conditions.

MICHELIN ROAD 5
WET OR DRY,
NO CONDITIONS APPLY.
CRUISE THE HIGHWAY
LIKE A BOSS.

MICHELIN

MICHELIN ROAD 5
MORE CONFIDENCE IN WET
AND DRY CONDITIONS, EVEN
AFTER 3000 MILES*

**#1 FOR WET GRIP
ON THE ROAD***

Using the latest combined technologies of Michelin 2D and 3D⁺ and the latest generation of compounds and sipes tread, Michelin Road 5 tyre offers you the best wet grip versus its main competitors** without compromise on dry roads*

**EVEN AFTER 3000 MILES,
EXPERIENCE BRAKING
IN THE WET***

Even after 3000 miles, a Michelin Road 5 tyre stops as short as a brand new Michelin Pilot Road 4 tyre** thanks to the revolutionary MICHELIN 3D⁺ sipes open.

FUN TO RIDE

With its dry grip, stability and best handling versus its main competitors, thanks to Michelin's patented ACT⁺ siping technology, it offers even more riding pleasure.**
