EQUIPED WITH (TPE) SHIELD

(THERMOPLASTIC ELASTOMER)

Introducing our latest motorcycle helmet featuring an advanced TPE shield engineered for superior flexibility, durability, and impact resistance. This innovative material combines the strength of traditional plastics with the elasticity of rubber, creating a shield that not only withstands extreme conditions but also ensures long-lasting clarity and protection.

Whether you're cruising the highways or navigating city streets, this next-generation shield is built to perform adapting to your ride, your style, and your adventure
